Journal of Soil and Water Conservation

Index to Volume 38

Aarstad, J. S. (and D. E. Miller): Residue Management to Reduce Furrow Erosion, 366
Abercrombie, Billy R.: A Master Plan in Maine, 173

Agencies
cooperation in living snowfence program, 23
cost-sharing for conservation tillage in New York State, 170
cross-compliance in USDA programs, 75
Forest Service cost-sharing programs, 350
GAO report on major USDA conservation programs, 346
interagency cooperation in Illinois, 176
interagency cooperation in Maine, 173
interagency cooperation in Oregon, 177
need for cooperation in conservation tillage program, 136
role in nation's first conservation demonstration project, 393
role in promoting adoption of conservation tillage, 162
SCS, need program changes in, 451
STEEP, an interagency, multidisciplinary approach to soil conservation, 244
team approach to conservation tillage programs in Oregon, 171
U.S. Department of Agriculture Payment-In-Kind program (PIK) effects on conservation, 413

Agricultural Land Retention
case for farmland conservation, 4
county approaches, 468
in Massachusetts, 472
right-to-farm laws, 465
the Land Evaluation and Site Assessment (LESA) system, 82
the Land Evaluation and Site Assessment (LESA) system in Whitman County, Washington, 87

Agriculture
alternative farming systems, effects on costs and conservation, 333
commodity programs and conservation goals, 324
commodity programs, need for new, 451
compatibility of corn for alcohol production with conservation, 489
conservation capital investment in, 455
contributor of current practices for wind erosion in Illinois, 58
factors influencing farmers' conservation decisions, 15
High Plains study critique, 28
office of technology assessment of land productivity and technology, 7
right-to-farm laws, 465
role of farm women in conservation, 69
soil conservation aspects of Payment-in-Kind program, 475
U.S. Department of Agriculture Payment-In-Kind program (PIK) effects on conservation, 413
U.S. export policy and conservation, worldwide, 25

Aldrich, James W. (and Charles W. Slaughter): Soil Erosion on Subarctic Forest Slopes, 115
Antognini, Joe (and William A. Hayes, Gary L. Jacques, and A. Douglas Worsham): Weed Control: A Panel Discussion, 194

Baker, J. L. (and J. M. Laflen): Water Quality Consequences of Conservation Tillage, 186
Baldwin, Donald M. (and David Dickens): How We Became the No-Till Capital of Oregon, 171
Barnett, A. P. (and G. W. Langdale, H. F. Perkins, J. C. Reardon, and R. L. Wilson, Jr.): Soil and Nutrient Runoff Losses with In-row, Chisel-Planted Soybeans, 297
Barnett, James P: Containerized Pine Seedlings for Revegetating Difficult Sites, 462
Bennett, O. L. (and J. N. Jones, Jr., H. D. Perry, E. L. Mathias, M. C. Carter, R. J. Wright, and J. L. Hern): Conservation Tillage in Appalachia, 219
Benoit, G. R. (and W. J. Grant, C. D. Stanley, and D. B. Torrey): Seeding Rate Recommendations for a Winter Rye Cover Crop Based on Expected Leaf Area Index, 361
Berg, Norman: SCSA Goes to Washington, 5
Berkland, Mark (and Ernest Hintz, Roger Mussetter, and Bill Welker): A Farmer-To-Farmer Approach in Iowa, 174
Betts, Lynn (and Ernest Hintz and Ron Williams): Untillage Committee Creates Peer Pressure, 175
Bhide, Shashanka (and C. Arden Pope III and Earl O. Heady): The Economics of Conservation Tillage in Iowa, 370
Bilbro, J. D. (and D. W. Fryrear): Residue Management and Cultural Practices for a Semiarid Region, 312
Blevins, R. L. (and M. S. Smith, G. W. Thomas, and W. W. Frye): Influence of Conservation Tillage on Soil Properties, 301

Books Reviewed
Agricultural Management and Water Quality: Edited by Frank W. Schaller and George W. Bailey, 484
An Open Land: Photographs of the Midwest, 1852-1982 (1982): Curated by Rhondal McKinney and edited by Victoria Post Ranney, 423
Land Drainage: L. K. Smedema and D. W. Rycroft, 485
Resource and Environmental Effects of U.S. Agriculture: Pierre R. Crosson and Sterling Brubaker, 484
The American Cropland Crisis (1982): W. Wendell Fletcher and Charles E. Little, 38
The Cropland Crisis: Myth or Reality (1982): Edited by Pierre R. Crosson, 359
The Politics of Agricultural Research (1982): Don F. Hadwiger, 101
Water for Western Agriculture (1982): Kenneth D. Frederick and James C. Hanson, 101
Wildlands and Woodlands: The Story of New England's Forests (1982): Lloyd C. Irland, 423

Borich, Timothy O. (and Betty L. Wells and Jack D. Frus): Conservation Tillage in an Iowa County, 284
Bourgoin, Terry L. (and Dwight G. Stiles, Neal Hallee, and Michael P. White): Inroads and Obstacles in Potato Country, 172
Brown, George E., Jr.: Information Management for Conservation Decisions, 451

Come Up with Reliable Facts in SOIL EXPLORATION

Use the GIDDINGS SOIL SAMPLER with these 11 features

Saves Manpower with its one-Man Operation • Cores Fast—from 5 to 10 feet in 60 seconds • Drills Deep—down to 35 feet in some soils • Fully Hydraulic Powered—only machine of its size and type with an hydraulic-powered rotary head • One head takes auger and probe tools • Undisturbed Soil Samples with probe tools • Quick Mount saves working time • 4-Way Leveling Device • Hydraulic Powered Reclining Mount with Increased Ground Clearance • Substantial Savings in equipment costs • Anchors and Stabilizer for Positive Action.

See the Trailer-mounted Model GSRP-ST. Write for catalog.
